

## SALT LAKE DAILY HERALD

SATURDAY MORNING, SEPT. 11, 1880.

THE DAILY HERALD is published every morning, except on Sundays, at the office of the publisher, at the corner of Third and Main streets, Salt Lake City, by the Salt Lake Publishing Company. Subscriptions are made in advance, and the price is \$1.00 per annum, in advance, and \$0.50 per month, in advance. The price of the paper is \$0.10 per copy, in advance, and \$0.20 per copy, in advance. The price of the paper is \$0.10 per copy, in advance, and \$0.20 per copy, in advance.

There is no longer any doubt about the politics of Vermont. The state is certainly republican.

Belonging services in the poorhouse of La Salle County, Ill., have been forbidden by the superintendent. He says two-thirds of the inmates are insane, and the rest have "as much religion already as is good for them."

"Dr." Buchanan, the bogus diploma man of Philadelphia, did not play his drawing act well. Yesterday he was decoyed onto United States soil from Canada, and was immediately arrested. Having left his bondsman in the lurch once, it is not likely that he will be able to obtain bail a second time. Jail will be his portion until the penitentiary greets him.

The New York *Truth* believes its name, or the true name of the republican candidate for vice-president is Chester A. MacArthur. *Truth* asserts with a positiveness that is worse than reckless if it is not true, that not only is the name MacArthur, but that he was born in the north of Ireland. As no man born a foreigner can lawfully be president of the United States, Mr. Arthur or MacArthur ought to lose no time in proving his nativity.

The daughter of a wealthy landowner of Granby, near Bremen, is demonstrating that she is the champion sleeper. She has been sleeping, without interruption, except for a few minutes at a time, for seven weeks. She is pale in appearance, but does not seem to suffer physically from her protracted nap. Light food is administered to her from time to time. She would be a good wife for Dr. Tanner, as the doctor would have no occasion to roast her out in the morning to get his breakfast.

THE HARRISBURG, Pa., newspaper reporter who "ecoped" other journals by publishing a remarkably accurate account of a burglary, before the victims knew that they had been robbed, was entirely too enterprising for a successful reporter and burglar at the same time. His account of the crime excited suspicion, and a detective put upon his trail soon succeeded in finding evidence of his guilt; and now the young man confesses that he was the burglar whose work he had so correctly described. The two professions will hardly go well together.

IF WHITELAW REID, editor of the New York *Tribune*, and Frank Beltsbover, member of congress for the Nineteenth District of Pennsylvania, were living south of Mason and Dixon's line, it is pretty certain that there would be blood-letting by one or the other of them; but as they happen to live in states where the "code" is rather despised than respected it is probable they will settle their troubles by calling each other names. The true inwardness of this difficulty has not reached us, but it can be gathered from the telegrams that a paper at Mr. Beltsbover's home published a letter claiming that it was written by that gentleman, which he denied, pronouncing it a forgery. The New York *Tribune* then published a fac-simile of the manuscript, and asserted in plain English that Beltsbover was a liar. The congressional reports by telegraphing some plain talk to Reid, and there the matter stands, the *Tribune*, in the meantime, daring Beltsbover to enter suit for libel. The newspaper seems to have the best of the quarrel.

THE REPUBLICANS have professed to derive a good deal of happiness from the disunion in the democratic party of New York, but that disunion does not exist, nor has it existed as to the national ticket since the Cincinnati convention. While there was some trouble between the Tammany and regular democracy, growing out of a dispute as to the division of local offices, all were united on Hancock, whose nomination was promptly succeeded by the withdrawal of the Tammany electoral ticket. In a letter just published from John Kelly, the Tammany chief, to J. Sterling Morton, chairman of the Nebraska democratic central committee, occurs the following: "The democrats of New York are united, and are in full sympathy and accord in their support of Hancock and English. We shall give our presidential candidates the largest majority that has been given for democratic nominees in many years—much larger than Mr. Tilden received in 1876." Kelly speaks understandingly, and when he says the "largest majority" that has been given for years, he means the largest. Tilden's plurality in 1876 was 32,742, his majority over Hayes equalling 3,12 per cent. of the state vote. At that election the republicans also cast a higher percentage (48.12) of the New York vote than at any election since. In 1878 the republicans cast 47.31 per cent. of the total vote, and in 1879 46.70 per cent, while the democrats, who at the last election were ruinously divided, polled over 50 per cent. of the vote. If Indiana, New Jersey, and Connecticut were as certain to elect the democratic tickets this fall as New York is, the republicans would give up the fight without striking a blow, notwithstanding they profess to hope for success in the Electoral college.

It is learned that the difficulty in regard to the Union Pacific branch road passing through Silver Creek Cañon has been arranged. The County Court has granted the petition of the railroad to temporarily close the wagon road in the cañon, and turn the travel to and from the Park via Three-mile Cañon. The court was unanimous, all four members acceding to the request. There is not a little dissatisfaction in the county with the action of the court, but much of the fault finding is unreasonable. The arrangement entered into by the court and the railroad company is that the latter, where it injures the present wagon road, shall repair it, and put it in good condition, satisfactory to the court or road commissioners. There is also a requirement that the railroad shall erect substantial guards of plank at certain points where wagons would be liable to fall over dog-ways. The wagon road is to be opened with the completion of the railroad grade. In the meantime the travel must pass through Three-mile Cañon, where the railroad company has made as good a road as is practicable. We think the County Court has acted wisely in promptly acceding to the request of the Union Pacific. It is true the freighters between Coalville and the Park will be inconvenienced, but this could not be helped. The talk about preventing the railroad from passing through the cañon because it would interfere with the wagon road was idle. The railway could reach Park City by no other route, and an attempt to keep it out of the cañon would have involved trouble and expense that Summit County is not able to stand, and in the end the railroad would win. The people have lost no rights that they could have maintained. It is thought that wagoning in Silver Creek Cañon will be suspended about two months.

## LATEST TELEGRAMS.

**Sunken Vessel.**  
Oswego, 10.—The schooner *Isabella*, from Albany, Canada, to Sodus, with iron ore, sank off Charlotte. The vessel and cargo are a total loss. Crew saved.

**The Equestrienne Race.**  
Minneapolis, 10.—The twenty mile race between Miss Cook and Miss Pinnis Cole, for a purse of \$2,000, \$3,000 added, was the feature of the day and was a spirited affair. Miss Cook won 48 to 50, beating her competitor nearly two miles.

**Criminals.**  
Little Rock, Ark., 10.—Deputy United States Marshal Kyle has arrived at Fort Smith with nine prisoners from Oklahoma. Among them are two Seminoles charged with murdering two white men—Bateman and Dineen—in the Chickasaw country, 200 miles west, in November, 1877.

**Trial.**  
New York, 10.—Coney Island races. The three-quarter mile was a walk over for "Labe Blackman." The three-quarter mile for 2-year-olds resulted in a dead heat between "Brannhalla" and "Bonnie Lizzy," time, 1:22. Third race, heats of one and one-eighth miles, was won by "Perida," "Blaney" second; time, 2:02, 2:04, 2:05.

**Strange Execution.**  
Denison, Texas, 10.—At Atlanta, Tex., an Indian named Dixon was executed for the murder of Miss Washington, a year ago. The medicine man made a spot on the count of the prisoner's breast, and Abner W. Cook, his cousin, was chosen as his executioner. He fired the ball true to the mark. Dixon's head fell forward on his breast, and he expired without a struggle.

**The Test Race.**  
Chicago, 10.—The attendance today at the test race has been greater than any previous day and the contest grew close and exciting between Byrne and "Betsy Baker." The former has the sympathy of the crowd, and has made ninety miles to-day, without apparently exhausting himself. At midnight the score was: Horner—"Betsy Baker," 490; Botman's entry, 463; "Rose of Texas," 463; Dunn's entry, 446; Man—"Byrne," 490; Krohn's, 461; Colston, 457; Schack, 395; Jackson, 180. O'Leary rode his horse seventy-seven miles. "White Eagle" concluded his five miles in 32:04.

**Hayes at the Fair.**  
San Francisco, 10.—The President and party visited the Mechanics Fair this evening, arriving at the pavilion about 9:30. The building was packed, and there were probably not less than 15,000 present. The President was met at the door by the committee of the institute and escorted about the grounds, although owing to the press of people it was impossible to take a note of any particular features of the exhibition. The President and General Sherman exhibited themselves for a few minutes in the south gallery and were warmly greeted, but did not address the audience on account of fatigue.

**The Canadian Pacific Railroad.**

Chicago, 10.—Inter-Ocean's New York: The completion of the Canadian Pacific Railroad has been for some time the subject of negotiation in London. Recent dispatches have announced that the negotiations had been closed successfully, and that a syndicate of English and French capitalists had been formed which would insure the speedy completion of the road. This announcement is reported to be premature by those who are likely to know the progress of the deliberations. A dispatch received in this city gave the names of Morton, Rose & Co., of London, the Societe Generale, of Paris, and the Bank of Montreal, as the members of the syndicate. L. P. Morton, of Morton, Rose & Co., and the New York house of Morton, Bliss & Co., said that he did not understand that the negotiations had been concluded. His friends in England were considering the merits of the project, but no positive result had been reached so far as he had been informed. Walter Watson, the New York agent of the Bank of Montreal, said the bank was likely to take part in the completion of the road, but he had not been informed of the details proposed in the arrangement. If these arrangements had been perfected he would be informed of the particulars at an early day. He expressed no doubt of the early completion of the Canadian road.

**Foreign.**  
London, 10.—The steamer *Frisia*, which sailed from Hamburg on Wednesday, for New York, took \$800,000 in gold.

The Manchester *Guardian's* correspondent at Ragusa telegraphs on Wednesday as follows: At the twelfth hour the Turks have taken action. Today Risa Pasha dispatched five battalions from Scutari to effect the cessation of Dulegine. Risa Pasha has been latterly trying bribery very successfully on the more turbulent Scutarian chiefs. The encouragement the Porte has hitherto given the Albanians must, however, still render its relations doubtful. Should the Albanians execute their threat to oppose Turkish troops, the Porte may yet wash its hands of the affair, urging the impossibility of coercing Mussulmans.

Thirty corpses have been recovered from the Strabam pit, up to 7 o'clock last evening, when search was suspended for the night in consequence of the accumulation of gas.

Rome, 10.—A stream of lava is issuing from Mount Vesuvius, near the new railway to the crater. Some important visitors have been injured. Athens, 10.—The Porte's reply relative to the Greek frontier will be presented on Saturday. It declares that it is impossible to accept the proposals of the powers and begs them, in the name of justice, to allow negotiations to be reopened.

Paris, 10.—A fire in Saint Beas destroyed thirty-two houses and rendered one hundred people homeless. The National defense last night were any differences in the cabinet in regard to the bill on the prosecution or execution of the religious decrees which, it believes, will be shortly carried into effect.

Constantinople, 10.—Risa Pasha telegraphed early today that the Albanians had determined to resist. The cabinet immediately met. It is reported that the Sultan is much incensed, as the Albanians have determined that the troops shall employ force.

Dulegine, 10.—The troops sent by Risa Pasha encamped last night near here. The town is very excited. The state league held a meeting at Scutari to oppose them.

Pero, 10.—The Turkish troops at Scutari had an engagement with a band of Albanians on Thursday.

**Political Points.**  
Chicago, 10.—Inter-Ocean's Washington: Later advice confirms the previous announcement that Louisiana will send at least one republican to the next Congress to succeed Acklin, owing to the desperate contest between the democratic factions of the party of the district. The democratic papers admit this result as secured.

All attempts to adjust the difficulty among the democrats in Virginia have proven fruitless and now the democrats say they don't need Virginia, but can carry it despite the fight over all the republicans.

Oswego, 10.—The republicans of the Twenty-fourth District have renominated Joseph Mason for Congress.

**A New Gold Find.**  
San Francisco, 10.—A dispatch from California says: Excitement has existed in this vicinity for the past two weeks over the report that the hot springs, at this place, carry large quantities of gold in solution.

**Domestic.**  
Buffalo, 10.—Buffalo 9, Cincinnati 11. At the commencement of the ninth inning, the Buffalos went to the bat when the Cincinnati refused to play on account of the darkness. The umpire gave the game to the Buffalos—score 9 to 0.

Chicago, 10.—An *Inter-Ocean's* Kankakee, Ill., special says the cloth and cotton factory of that place burned this afternoon. Loss not stated; insurance, \$11,500.

**A Fact Worth Knowing.**  
Are you suffering with Consumption, Coughs, Severe Colds settled on the Breast, Pneumonia, or any disease of the Throat and Lungs? If so, go to your Druggist and get a bottle of BOSCHER'S GERMAN SYRUP. This medicine has lately been introduced from Germany, and is selling on its own merits. The people are going wild over its success, and Druggists all over our country are writing us of its wonderful cures among their customers. If you wish to try its superior virtues, get a Sample Bottle for 10 cents. Large one bottle 75 cents. Three doses will relieve any case. Try it.

SALT LAKE

SEMI-WEEKLY HERALD

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that make the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the Semi-Weekly HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The Semi-Weekly HERALD has certainly met with unexpectedly great favor at the hands of the people.

SALT LAKE

WEEKLY HERALD

The demand for a WEEKLY HERALD has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail a review often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for reading abroad—a paper that shall faithfully and honestly represent the great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circles and family fireside, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD welcome to the visitor to the home, where it will be found a constant fund of instruction, entertainment and profit to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised.

In fact, our aim will be to make the WEEKLY HERALD welcome to the visitor to the home, where it will be found a constant fund of instruction, entertainment and profit to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised.

SALT LAKE

WEEKLY HERALD

The demand for a WEEKLY HERALD has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail a review often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for reading abroad—a paper that shall faithfully and honestly represent the great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circles and family fireside, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD welcome to the visitor to the home, where it will be found a constant fund of instruction, entertainment and profit to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses.
